Bands must arrive at the event venue at least **2 hours before** their allocated time slot

GLASTONFERRY

Bands must arrive at the event venue at least **2 hours before** their allocated time slot to allow for any traffic congestion / delays etc. This also allows time to get the band and any vehicles parked on site and to get them as close to the stage as possible so that they are ready to get set up as soon as the band before you has finished.

All bands must adhere to the time slots allocated so that everything runs efficiently.

All bands must NOT start or finish their slot earlier or later than specified.

The Ferry Tavern will provide PA and lighting along with sound & lighting technicians.

The Ferry Tavern will also supply the following backline on both stages…

- Yamaha 9000 drum kit with size 10, 12 rack, 16 floor, 22 kick and Zildjian cymbal set
- Ampeg SVT 2 bass amp (SVT 3 as spare)
- Marshall JCM800
- Marshall 412 (Fender Hotrod Deluxe as spare)

Another on-stage technician will also be provided to deal solely with the backline equipment.

Bands only need to bring their own guitars, bass guitar, pedals, leads and drum sticks etc.

For those who have not been to the venue before you can find the directions posted on our website… http://www.theferrytavern.com. If you're using a sat nav then use the postcode 'WA52UJ'. It may say 'unnamed road' however this is correct.

Approximately 20 minutes before your expected arrival at the event can I ask that someone from the band contact Dave Richard, Stage Manager on 07809739562 to let him know you're about to arrive. He can then open the gates to get your vehicles parked in the right place near the stage.

Bands will be paid in cash after their performance unless other arrangements have been made prior.

The Ferry Tavern will provide bottles of water and cans of lager/cider for each band for the duration of their own set and for the duration of the bands set playing before them whilst you wait to go on stage.

All bands members will be given a wristband for back stage access. All bands must vacate the back stage area once they have finished their set and cleared the stage for the bands following them. Wristbands will be removed after you leave the stage area and band members who have performed must not come back into the back stage area after vacation.

Complimentary refreshments will no longer be provided once your band has vacated this area.

Can all band members be mindful not to use foul language when on the vocal mics. Although the event is 18 years and over the amplified sound can be heard in nearby public areas that are popular with families and children. We have received complaints about this in past events.

Finally, we look forward to seeing you and hope you enjoy the day!
